NOGALES RESOURCES CORP.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
April 30, 2017

Note 1 Nature of Operations and Ability to Continue as a Going Concern

The Company was incorporated in the state of Nevada, USA on April 9, 2014. The Company was formed for the purpose of acquiring and developing mineral properties.

Basis of Presentation

The unaudited interim consolidated financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. They do not include all information and notes required by generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material change in the information disclosed in the notes to the financial statements included in the Annual Report on Form 10-K of the Company for the year ended April 30, 2017. In the opinion of management, all adjustments (including normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended July 31, 2017, are not necessarily indicative of the results that may be expected for the year ending April 30, 2018. For further information, these unaudited interim consolidated financial statements and the related notes should be read in conjunction with the Company's audited consolidated financial statements for the year ended April 30, 2017, included in the Company's report on Form 10-K.

Going Concern

These consolidated financial statements have been prepared assuming the Company will continue as a going concern and will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. The Company has yet to achieve profitable operations, has accumulated losses of \$82,363 and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern.

Note 2 Related Party Transactions

On June 30, 2017 the Company's former president forgave loans and interest totalling \$44,859.

During the three months ended July 31, 2017, the Company's President advanced the Company \$16,519, for a total amount advanced of \$51,121. The advances are unsecured, bear no interest, and have no terms of repayment.

Note 3 Notes Payable

On April 6, 2016, an amount totaling \$23,978 and on April 30, 2016, an amount totaling \$25,000 were loaned to the Company. These loans had an interest rate of 6 % per annum.

The total interest due on these notes at April 30, 2017 was \$3,033.

On June 30, 2017 these loans, totalling \$52,011, in principal and interest were forgiven.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements." These forward-looking statements generally are identified by the words "believes," "project," "expects," "anticipates," "estimates," "intends," "strategy," "plan," "may," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

Management's Discussion and Analysis of Financial Condition and Results of Operations

We are a mineral exploration company incorporated in Nevada on April 9, 2014. On May 8, 2014, we incorporated a wholly-owned subsidiary, NRC Exploration LLC in the state of Nevada, for the purposes of mineral exploration. On May 20, 2014, our consulting geologist introduced us to a mineral property and we acquired an option on that property whereupon we could acquire 100% legal and beneficial ownership interest in a mineral claim known as the Donald mineral claim.

In view of the world wide depressed market for metals in 2015, we chose not to exercise our option on the Donald Property and that option has now expired. Management is currently searching for other opportunities in the mineral exploration field.

Results of Operations for the three months ended July 31, 2017.

For the three months ended July 31, 2017 we did not earn any revenues. On June 30, 2017, an unrelated third party forgave loans totaling \$52,011 in principal and interest and a former CEO and director forgave loans totaling \$44,859 in principal and interest. For the three months ended July 31, 2017 we incurred total operating expenses of \$12,941 (2016 – \$18,652) and earned net income in the amount of \$83,929 (2016 – net loss of \$20,078).

Our expenses during the quarter consisted of audit and accounting fees of \$3,500 (2016 – \$6,000), Office and miscellaneous expenses of \$6,014 (2016 – \$6,106), legal fees of \$1,160 (2016 – \$2,655), transfer and filing fees of \$2,267 (2016 – \$3,891) and interest expense of \$nil (2016 – \$1,426). These were offset by a gain on forgiveness of debt of \$96,870 (2016 – \$nil).

Liquidity and Capital Resources

As of July 31, 2017, we had total current assets of \$240 (April 30, 2017 – \$268), consisting entirely of cash. We had current liabilities of \$10,557 (April 30, 2017 – \$66,174). Accordingly, we had a working capital deficit of \$10,317 as of July 31, 2017 (April 30, 2016 – \$65,906).

To date, we have funded our operations primarily through loans from related parties and from unrelated third parties. As of July 31, 2017, we owed our current CEO \$51,121 for advances. Amounts loaned by our former CEO and an unrelated third party totaling \$96,870 in principal and interest were forgiven on June 30, 2017.

We do not currently have sufficient funds to repay our existing debts. If we are unable to secure additional financing, we could fail and investors may lose some or all of their investment. In addition, we are no longer pursuing exploration or development of the Donald Property and our option for that property has expired. We are currently searching for other opportunities in the mineral exploration field. As such, we are unable to provide an accurate estimate of our financial requirements for the next twelve months. If we do identify a suitable business opportunity that we wish to pursue, we will likely need substantial financing. If we fail to obtain sufficient financing, our ability to pursue alternative business opportunities may be limited. We do not currently have any financing arrangements in place, and there is no assurance that sufficient financing will be available to us when needed.

Going Concern

As discussed in the notes to our consolidated financial statements, we have no established source of revenue. Without realization of additional capital, it would be unlikely for us to continue as a going concern.

Our activities to date have been supported by equity financing. Management continues to seek funding from its shareholders and other qualified investors to pursue its business plan.

Off Balance Sheet Arrangements

As of July 31, 2017, there were no off balance sheet arrangements.

Recently Issued Accounting Pronouncements

We do not expect the adoption of recently issued accounting pronouncements to have a significant impact on our results of operations, financial position or cash flow.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information required by this Item.

Item 4. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of July 31, 2017. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Ms Yang Liu. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of July 31, 2017, our disclosure controls and procedures are not effective. There have been no changes in our internal controls over financial reporting during the three months ended July 31, 2017.

Management determined that the material weaknesses that resulted in controls being ineffective are primarily due to lack of resources and number of employees. Material weaknesses exist in the segregation of duties required for effective controls and various reconciliation and control procedures not regularly performed due to the lack of staff and resources.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are not a party to any pending legal proceeding. We are not aware of any pending legal proceeding to which any of our officers, directors, or any beneficial holders of 5% or more of our voting securities are adverse to us or have a material interest adverse to us.

Item 1A: Risk Factors

A smaller reporting company is not required to provide the information required by this Item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
